

KITCHEN COMPETENCE
Performance for Life

Almost 100 years ago,

KLUDI began manufacturing bathroom fittings using traditional methods of craftsmanship. Followed by high-quality, reliable fixtures of timeless design, this expertise formed the foundation of KLUDI. From the tradition as a faucet specialist, the goal was created to combine the highest quality of use and perfect design in a unique way. Thus the claim *Water in Perfection* finds unmistakable expression in our products as well as in all services we provide for our customers. It inspires and drives

our future activities.

Reliable functions,
perfect form,
top performance
since 1926

4

Since 1926, we at KLUDI have been focusing on what we do best: the development and manufacture of quality fittings. We actually developed many of the features found in modern fittings. For example the multi-connection, or the KLUDI E-GO, the world's first hybrid sensor fitting for kitchen sinks. We hold over 100 patents for our fittings, a testament to our inventiveness. This expertise proves itself day after day in demanding kitchen settings, and helps us create advanced products with excellent feature sets. That was our mission when we developed our KITCHEN COMPETENCE concept – to improve clarity and ease in everyday kitchen work.

KITCHEN COMPETENCE

Benefits for you

Brand quality from the fittings specialist

From product development and in-house tool construction all the way to final assembly by hand, the KLUDI teams ensure that all our fittings meet the strictest finishing, functionality and durability demands.

BASIC DESIGNS

The sink is at the heart of everyday kitchen life. It's where we do so many things: from filling glasses and preparing meals to cleaning kitchen utensils. That makes it all the more important to find the perfect fitting for your individual needs to make your work easier and add true value in your kitchen. Making this decision as easy as possible for you, our new kitchen range groups specific kitchen needs into three function levels: COMFORT, COMFORT PLUS and EXCELLENCE. Our three basic designs M-, L- and C-LINE also combine all shapes that turn your kitchen's 'watering hole' into a veritable eye-catcher. Find the perfect kitchen fitting with all the features you need and your preferred design.

8

Add convenience, enhance safety and save time. See for yourself how the perfect sink equipment makes your life easier in every step. That leaves more time for the important things in life.

With its three function levels, our new KITCHEN COMPETENCE range keeps everything clear, helping you find the version with the features you need. From basic functions to high-end requirements – our range leaves nothing to be desired. See our product overview on page 7 for full details of the functions and fittings.

RANGE OF MOTION UP TO 360°

Fittings with a full range of motion are ideal for use on kitchen islands.

COMFORT

Optimal functional benefits in everyday life

COMFORT does everything a fitting should, whether for classic fitted kitchens, or for kitchen islands.

SWIVEL SPOUT

The swivel spout makes it easy to fill pots and containers right where the cooking is done. That makes it an extended arm in the kitchen helping you work conveniently where you need to do the job – even behind fittings that swivel 360°.

COMFORT PLUS

Exclusive operating experience

COMFORT PLUS goes beyond everyday requirements: the added features make every use of the kitchen fitting an exclusive experience.

10

PULL-OUT SPOUT

A pull-out spout makes your everyday work in the kitchen easier. Whether you need to fill a tall vase, wash vegetables or clean large pots conveniently, a pull-out spout makes these jobs much easier, as it gives you more freedom to move around the sink.

PULL-OUT HAND SPRAY

In addition to the extended range of motion, the pull-out hand spray makes it easy for you to switch between two water flow settings. The volume jet is ideal for filling large vessels like tall pots and vases quickly. The spray jet is ideal for removing stubborn dirt.

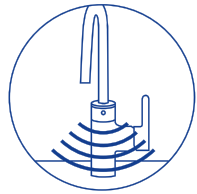

MULTI-CONNECTION

The KLUDI multi-connection enhances reliability and convenience. The small lever valve on the fitting base lets you easily stop and restart the water supply to the dishwasher or washing machine in the kitchen. All it takes is a quick turn of the unobtrusive valve.

UNDER WINDOW ASSEMBLY

A KLUDI innovation creates kitchen sinks with a view and optimal design freedom, even right beside kitchen windows – the bayonet connection lets you move the fitting out of the way in seconds to open the window. You can simply pull the fitting vertically out of the base and lay it down at the side of the sink.

INTUITIVE OPERATION

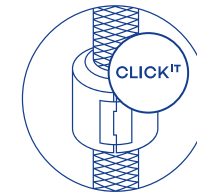

Want flowing water even when both of your hands are full? An intelligent infrared system switches on the water flow when you need it.

SENSOR TECHNOLOGY

KLUDI sensor technology intuitively supports you in your every-day kitchen work. One gesture is all it takes to control the water flow precisely and conveniently via the unobtrusive integrated sensor. That keeps your hands free and the fitting shiny and hygienically clean. Our hybrid technology makes it easy to switch between contact-free operation and operation by hand.

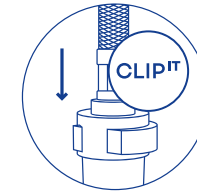

KLUDI EASY-FIT – better in every detail

Installation has never been easier

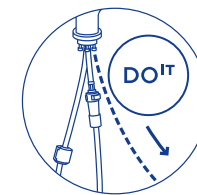

TOOL-FREE INSTALLATION

Takes just seconds – our innovative CLICK-IT® quick fitting system lets you install your pull-out spout fitting simply by hand.

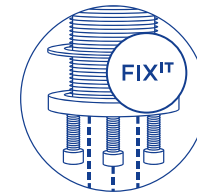

INSTALLATION IN SECONDS

Our new CLIP-IT® quick coupling enables you to simply clip the connecting hoses together, no tools are necessary.

REDUCED WORKLOAD

Our extra-long DO-IT® connecting hoses mean that no awkward extensions and additional accessories are required for installation.

SIMPLE HANDLING

Our new FIX-IT® shaft mount ensures that your fitting is stable and securely held in place.

Our new CLICK-IT®, CLIP-IT® and DO-IT® features as well as our new FIX-IT® shaft mounts minimise kitchen installation work, saving you time and ensuring better results when fitting your kitchen. We have labelled the fittings with our new features using the relevant symbols.

EXCELLENCE

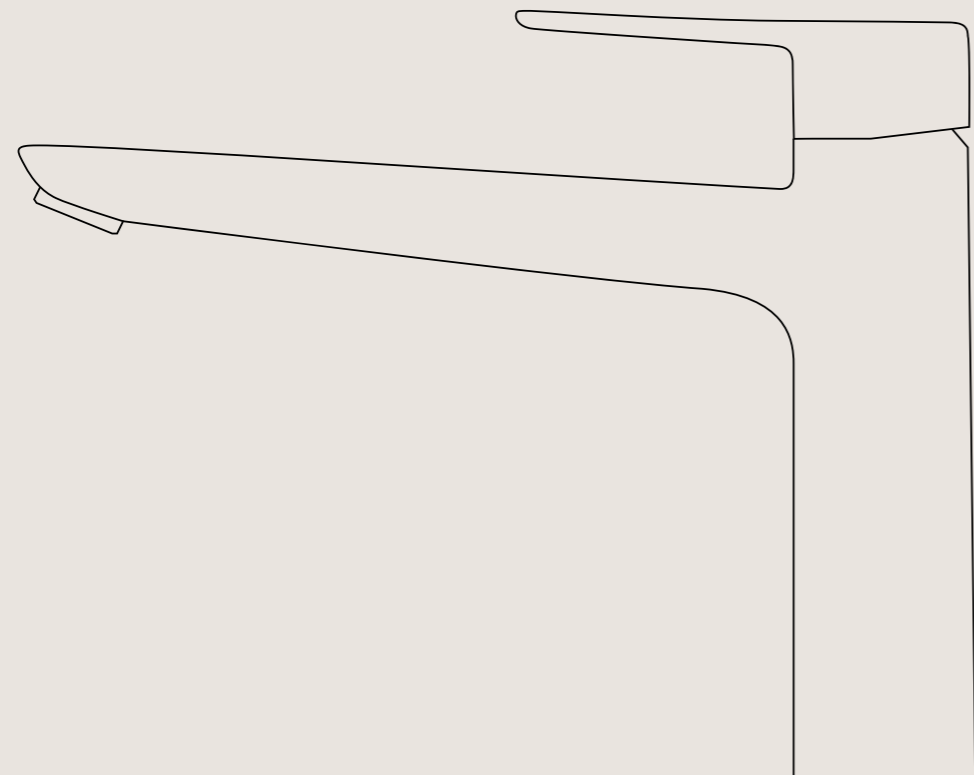

Intelligent kitchen fittings

EXCELLENCE meets the most exacting expectations for operating convenience. Building on our basic functions, electronic features turn the fittings into intelligent helpers in your kitchen.

With their harmonious and straightforward design, M-LINE kitchen fittings blend perfectly into modern residential settings.

KLUDI MIX

NEW

The classic with the highest functionality

KLUDI MIX is back – the proven all-rounder has been guaranteeing first-class functionality on kitchen sinks for over 30 years and embodies the excellent manufacturing quality of our kitchen fittings. With its gentle curves and straight lines, KLUDI MIX is a modern design classic, outlasting fads and fashions. Perfectly

tailored for your everyday kitchen work, the fitting offers you many different features like the multi-connection, the pull-out spout or bayonet function, and is available with both closed and open levers. To minimise the time it takes you to install the fitting, we equipped the KLUDI MIX with all of the EASY-FIT features.

KLUDI MIX

M2

Modern geometry and elegant design

NEW

22

The new KLUDI M2 series features a sophisticated design, bringing clear and clean lines to the kitchen. The combination of the extremely streamlined, dynamic spout with the slimline lever gives the fitting its modern, fresh look, making it ideal for youthful,

urban kitchen environments. To minimise the time it takes you to design your kitchen, KLUDI M2 has innovative EASY-FIT features that guarantee rapid installation.

KITCHEN COMPETENCE

M2

STEEL

Clear design and powerful elegance

24

The design of KLUDI STEEL is characterised by timeless symmetry and clear lines. Made of solid stainless steel, the fitting embodies durability. In everyday use, it can cope with the toughest conditions and offers a particularly easy-to-clean

and hygienic surface. The radially brushed finish highlights the elegant overall impression and is pleasant to the touch. This premium, timeless and elegant fitting blends harmoniously into modern kitchens, creating a clear, uncluttered feeling.

STEEL

OBJEKTA

Dynamic in form and function

26

Thanks to its timeless, classic design, KLUDI OBJEKTA blends particularly well into kitchens with a no-frills, modern look. With the tall base and the elegant, elongated body, the KLUDI OBJEKTA offers substantial space for working, even at small sinks. The dynamic lever design offers ergonomic convenience for perfect

control of the water volume and jet intensity. Whether bayonet fitting, multi-connection or pull-out hand spray - its functionality combined with its classic shape makes KLUDI OBJEKTA the perfect component of numerous kitchen concepts of various sizes.

TRENDO

SCOPE

Clear shape and optimal functionality

30

KLUDI SCOPE is characterised by its compact, cylindrical form that adds an elegant touch to small sinks. The dynamic swivel spout is highlighted by the precise opening angle of the lever and offers an optimal range of motion of 360° in its basic version.

The fitting can be combined flexibly with various sink types: Available in a variety of spout heights and function versions, KLUDI SCOPE meets a wide range of needs in your kitchen.

Precise geometry and pure, unadorned forms, reduced to the essentials make the L-LINE fittings stylish elements in minimalist kitchen design. Their slimline, L-shaped spout embodies minimalism at its purest, and offers plenty of space for your sink.

L STEEL

Stainless steel to meet the highest demands

34

Minimalist design with maximum style – with its precise, straight lines and absence of superfluous details, KLUDI L STEEL is minimalism at its purest. Its sophisticated spout and its clear stylistic idiom give the fitting a beautifully light, yet sturdy appearance in conjunction with perfectly balanced proportions.

Made of high-grade solid stainless steel, L STEEL is an impressive highlight in any exclusive kitchen. To minimise the time it takes you to design your kitchen, KLUDI L STEEL has innovative EASY-FIT features that guarantee rapid installation.

L-INE Functionality in perfect form

38

The tall spout and the L-shape make the KLUDI L-INE a stylish design feature. Round, harmonious shapes define the overall look of the series. The pull-out telescopic spout expands the range of motion. The gentle laminar jet is easy to control with the slender lever and ensures that the water does not splash

when it hits the sink. Whether classic one-hole or stylish two-hole fittings: The fine lines and clean design of KLUDI L-INE make it ideal for modern, minimalist kitchens. To enable you to make best use of your sink, KLUDI L-INE offers you features like the multi-connection and the bayonet fitting.

Pages 44-49

The C-LINE fittings stand out with their clear contours and expressive character, adding architectural touches to the kitchen sink. The tall, slimline spout in particular makes a lasting impression. By offering an abundance of space, it makes working at your kitchen sink simpler and more convenient.

E-GO Smart aesthetics

44

The intelligent KLUDI E-GO kitchen fitting is a perfect symbiosis of high-tech solutions made in Germany, functional operating convenience and sophisticated aesthetics. With its intuitive sensor technology, it keeps users' hands free and the fitting sparkling and clean. That makes it the world's first hybrid fitting

for kitchen sinks, giving you the freedom to choose between contact-free and manual operation. The KLUDI E-GO battery-powered version is easy to add to existing kitchens, making it ideal for retrospective installation.

More hygiene, more convenience. The integrated sensor technology, means KLUDI E-GO can always stay clean and dry, even when the user's hands are dirty or wet.

DETAILS

BINGO STAR

Perfect functionality in an expressive shape

46

The tall arched spout of the BINGO STAR not only makes it easier to fill large pots and vases, it also adds an elegant design highlight in the kitchen. Besides the dynamic design, the wide range of products, offering the perfect solution for every installation situation with the multi-connection

and bayonet fitting, is remarkable. The flexible double arch model offers even greater versatility by extending the fittings' range of motion. In both BINGO STAR versions, the water flow is a gentle, no-splash laminar jet.
